THE WEEKLY NATIONAL WHIG, Two Dollars pe

weerst nat. WHIG.

One of the largest newspaper in the United States, will be what its name indicates. It will speak the sentiments of the Whig Party of the Union upon all the questions of public policy now before the country and to come before it. It will advocate the election of

MAJOR GENERAL

ZACHARY TAYLOR.

the Hero of the Rio Grande, Monterey, and Buena Vista, to the next Presidency, for which we believe he has already been nominated by acclama tion in the hearts of his grateful countrymen. But while we advocate the election of this distinguished and whole-souled Whig, who has proved himself to be the greatest Captain of the age in a series of battles without parallel in the annals of warfare, and who, in his despatches has exhibited a power of intellect and soundness of judgment unsurpassed in the history of the human mind, we freely throw open our columns to the discussion of the merits, by their friends, of the other many eminent men, of the Whig party whose names have been associated with the Presidency. While Major General Taylor is our choice for the Presidency, whom we believe no earthly power can prevent the people from elevating unanimously to the first gift in their choice as a token of their appreciation of his true greatness, we shall be guided by the voice of the great Whig party of which we are but an humble member, and, if it should, in the course of events, be ordered that any other person than the man of our preference shall be selected as our candwate, we shall yield him our cordial support.

The Weekly Whig will attack at every assaila ble point, and ceaselessly, all the measures of the present administration of public affairs which shall be deemed to be adverse to the interests of the country, and will expose without fear or favor the corruptions of the party in power.

The columns of the Weekly Whig will be open to the pens of every Whig in the country for the discussion of the great political and other questions of the day, and to every Democratic pen, too, interested in enlightning the public mind respecting the corruptions and imbecility of the men to whom in an evil hour, the Democratic party intrusted the power of the Government.

The subscription price of the Weekly National Whig is two DOLLARS per annum, payable always in advance. 10-Letters containing money for the Weekly

ANOTHER WONDERFUL CURE! PHILADELPHIA, April 9, 1846:

PHILADELPHIA, April 9, 1846:
Last August a year, I caught a violent cold, in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing that I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alarmed; and my friends considered my situation extremely critical, the more so as loss of appetite, heating fever, and night sweats rendered me as weak as a child, and at night the sweat literally poured off fever, and night sweats rendered me as weak as a child, and at night the sweat literally poured off me! This was my condition when I commenced using "Thomson's Compound Syrup of Tar and Weed Nambula 1 to the beneat of others who may be suffering from the same malady, Dyspepsia, with which I was for years afflicted, I feel it a duty incumbent on me to state that I am now restored to perfect using "Thomson's Compound Syrup of Tar and Weed Nambula 1.

COLLETON BITTERS.

THESE Bitters are purely a vegetable com-pound, and are offered to the public from principle of benevolence, under the fullest convic-tion that they will be found a safe and sovereign tion that they will be lound a sale and sovereign emedy for Dyspepsia. They have been trium-phantly tested, not only by some of the most re-spectable families and physicians in the State of south Carolina, who have furnished ample testimony as to their decided excellence, but also by the preprietor, who, for ten years, suffered all the gloom socident to that stubborn and distressing disease.

They possess the peculiar excellence, denied to most other Bitters, of not proving injurious by continued use. They contain not a single deleterious ingredient, and, as seen from the directions which accompany each bottle, may be given with entire safety to an infant in the menth.

With pleasure, and for the benefit of mankind, I send you a certificate relative to the Colleton Bit-

Charleston, S. C., I was compelled to send a servant to the city. On his return, he was suddenly attack-ed with most violent pain in his bowels, so much so as to cause apprehension that he would expire in a short time, if medical aid could not be procured. I immediately resorted to the Colleton Bitters, by givng a wine glass full at a dose. In the course of a ery short time it acted as an emetic, and throwing nim at the same time into a profuse perspiration. I then continued to give it in small doses, from two to

three tea spoonsfull, which resulted in a happy re-covery. Since then I have been using it constantly in my family, in cases of cholera morbus, cholera infantum, diarrhota and general debility, and in every instance found it highly beneficial. Some constitutions, however, require much larger doses

JOS. D. JENKINS. Bluffton, S. C., 1846.

It is with feelings of gratitude as well as pleasure that I take this method of giving my testimony of the great estimation which I entertain for your invaluable compound. In justice not only to the me-dicine, but for the benefit of others who may be sufusing "Thomson's Compound Syrup of Tar and Wood Naphtha." I procured one bottle, and experienced so much benefit that I resolved to continue it. It is now six months since I ceased using the medicine, and the cure remains perfect. I firmly believe this medicine is far superior to every other remedy for Consumption of the Lungs.

THIS remarkable invention, which has received the almost universal approbation of the medical profession of Great Britain, comprises an entirely new application of Galvanism, as a remedial agent by means of which the ordinary Galvanic Batteries, Electric and Magnetic Machines, &c. are entirely, dispensed with, and the mysterious power of Galvan ism applied without any of the objections which are inseparable from the general mode now in use.

The Galvanic Rings have been used with entire

nervous tremors, dizziness of the head, pains in the
chest and side, general debility, deficiency of nervous and physical energy, and all nervous disorders.
In cases of confirmed dyspepsis, which is simply a
nervous derangement of the digestive organs, they
have been been found equally successful. Their extraordinary effects upon the system must be witnessed
to be be belived, and as a certain preventive for the
preceding complaints they are equally recommended.
The rings are of different prices, being made of all
sizes, and of various ornamental patterns, and can sizes, and of various ornamental patterns, and can slightest inconvenience. In fact, the sensation is ra-her agreeable than otherwise.

The Galvanic Necklaces are used with greater benefit in cases of bronchitis or affections of the throat generally; also, in cases of nervous deafness; and with

ally, also, in cases or hervous ceaness; and with almost uniform success as a preventive for appoplexy, epileptic fits, and similar complaints.

Christie's Magnetic Fluid is used in connexion with the Galvanic Rings, and all their modifications. This composition has been pronounced by the French Chemists to be one of the most extraordinary discoveries of modern science. Full explanations and directions accompany it. The combined inventions are in every way perfectly harmless; they are at prices within reach of all, and the discoverer only requests a fair trist, as a test of their surprising efficacy and permanent benefit.

CHRISTIE'S GALVANIC STRENGTHENING PLAS-

TERS.—These articles form another valuable applicareas.—These articles form another valuable applica-tion of the mysterious influence of Galvanism. They are an important adjunct to the genuine Galvanic Rings and their modifications, acting upon the same principle, but having the advantage of more local ap-plication. They are confidently recomended as a valuable addition in the speedy cure of rheumatism, valuable addition in the speedy cure of rheumatism, acute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the chest or back, pain in the side, in asthmatic affections, and in weakness or oppression of the pulmonary organs. In spinal complaints their effects are of the most decided character, and they have often been used with complete success. They are also of the greatest advantage in pains and weakness of the breast, and are highly recommended for many of those complaints to which females are especially liable. As an effectual means for strengthening the system when debilitated with disease and other causes, as a certain aid in constitutional weakness, as system when declinated with discussed in the case, as a certain aid in constitutional weakness, as a preventive for colds, and in all affections of the chest generally, the Galvanic Strengthening Planters will be found of great and permanent advanters.
